Something About Chinaware.

Every woman is proud of her
china, and wants to keep it look-
ing new and perfect. So often
she will use the wrong kind of
soap on it and injure it in appear-
ance—make it look worn and
cheap. "Easy Task Soap"—the
hard, white pure laundry soap—is
the only kind to use on china.
Not only does it clean china quick-
ly safely, but its antiseptic quali-
ties sterilize the china. In these
days of germ-cause diseases this
is an important point.

Automobile Law.

The Ohio Automobile Law be-
came effective on June 10, 1908.
On and after January 1, 1909, ev-
ery motor vehicle in this state,
whether carrying a city license or
not, is required to register in the
state department.

Every Motor Vehicle operated
and driven upon the public roads
or highways of this state shall be
provided with adequate brakes suf-
ficient to control the vehicle at all
times and a suitable and adequate
bell, horn or other device for signal-
ing, and shall during the period
from thirty minutes after sunset
to thirty minutes before sunrise,
display three white lights, two on
the front and one on the rear of
each motor vehicle, the rays of
which rear lamp shall shine up-
on and illuminate each and every
part of the aforesaid distinctive
number borne upon that part of
the motor vehicle, the light of
which front lamps shall be visible
at least two hundred feet in the
direction in which said motor ve-
hicle is proceeding, and every
motor vehicle shall also display, in
addition to the foregoing, a red
light on the rear thereof.

Auglaize; B. F. Bumgardner, Cos-
hocton; U. S. Gard, Darke; Chas.
Henry Jackson, James Tuck, Fa-
yette; Henry Ehret, M. Kelle-
her, Hugh McMahon, R. L. Trum-
bo, Franklin; Seymour Lawless,
Gallia; Robert Sidley, Geauga;
Dennis Gallagher, P. J. Martin,
Jackson; Patrick Moran, Jeffer-
son; Thomas Bucy, Licking; E. A.
Linson, Logan; George Steinard,
Lucas; Cornelius Taylor, Morgan;
R. R. Lamb, Morrow; Florence
Rader, Pike; A. H. Henderson,
Scioto; Fred Hatzler, Warren, and
Eli Isinhardt, Williams.

On Friday the board will meet
with the Legislature Advisory
Committee for the purpose of de-
ciding upon plans of improvement
in the dining hall and the cell
blocks in the east wing of the
prison.

Crop and Live Stock Statistics May 1, 1909.

The following report represents
the estimated area and condition
of the crops named, as computed
from the returns received from the
official correspondents of the De-
partment:

Wheat, prospect compared with
an average, 66 per cent.

Spring Barley, area sown com-
pared with last year, 87 per cent.

Winter Barley, prospect compar-
ed with an average, 71 per cent.

Barley, total area sown last fall,
28 per cent; total area sown this
spring, 72 per cent.

Rye, prospect compared with an
average, 74 per cent.

Oats, area for 1908 as returned
by township assessors, 1,271,886
acres.

Oats, area sown this year com-
pared with 1908, 104 per cent.

Oats, estimated area for the
harvest of 1909, 1,324,119 acres.

Clover, average date of seeding,
March 25.

Clover, acreage sown compared
with last year, 103 per cent.

Horses, losses during winter
and spring, 1.7 per cent.

Cattle, losses during winter and
spring, 1.4 per cent.

Sheep, losses during winter and
spring, 2.7 per cent.

Hogs, losses during winter and
spring, 2.3 per cent.

Berries, prospect compared with
an average, 81 per cent.

The present wheat prospect
shows a slight improvement since
the issuance of the April report,
being now estimated at 66 per
cent, compared with an average,
as against 62 per cent, reported
one month ago. The prospect
varies greatly over the state, rang-
ing from 18 per cent, in Warren
county to 101 per cent, reported
from Brown county. In thirty-
two counties the estimated pros-
pect is below 60 per cent; eighteen
counties report from 60 to 70
per cent; fourteen counties have a
fair prospect, ranging from 70 to
80 per cent; eleven counties report
from eighty to ninety per cent; ten
counties estimate the prospect be-
tween 90 to 100 per cent; two
counties report that the present
prospect is for a full average crop,
while, as stated above, Brown
county estimates the prospect at
better than an average. No ma-
terial damage by insect pests has
been reported. Many correspond-
ents note the abandonments of
wheat fields. The general pros-
pect is most discouraging and the
harvest will fall far short of a fair
average.

As anticipated, the area seeded
to oats is greater than that of one
year ago, due principally to the
failure of wheat. Last year the
township assessors reported 1,271,
86 acres sown to oats, and the re-
portment's official correspondents
now estimate that in comparison
with that area the present acreage
seeded is 104 per cent, or 1,324,
119 acres.

A large acreage of clover has

been seeded.
Berry prospects are estimated
at 81 per cent, compared with an
average.

Live stock generally in good
condition, with no unusual losses
during the winter and spring.

Benefit Concert.

Frank Mattox in Lighting Busi- ness.

[Lancaster Eagle]

At the council meeting in Brem-
en Monday night, Messrs J. Her-
bert and Frank Mattox, of this
City, were granted a twenty-five
year franchise for furnishing elec-
tric lighting to that prosperous and
enterprising little town.

They will immediately organiza-
a company and proceed immedi-
ately to equip and operate a plant.

Since the finding of oil in Rush-
creek township, Bremen has forged
ahead and bids fair to be a big
and progressive town.

Mr. E. Purvis offers the predic-
tion that Bremen in the next four
years will have a population of
four thousand. New houses are
going up and people are coming in
on every train.
